**PowerProbe™**

# THE FACTS.

The 9110 Ag-Probe TR is the newest model in the AMS PowerProbe line up. It is designed for use in agricultural and environmental sampling. This model can be mounted on most standard tractors that meet the standard weight limits. The 9110 Ag-Probe TR is powered by the Power Take Off (PTO) from the tractor.

Each model can be equipped as a complete package or sold individually if the customer already has an approved tractor available.

# 9110 AG-PROBE TR
